Shower Bath for Cows Is Part of Milking Test

BATON ROUGE, LA.—Experiments to determine whether more milk can be wrung from a cool cow are in progress at Louisiana State university.

As a result, said Dr. D. M. Seath of the experiment station staff, a few cows are being given shower baths daily at milking time. He said the sprinkling, if the cow is in the shade, brings the animal's body temperature down a full degree.

The other cows in the herd remain unsprinkled and hot. The question, said Dr. Seath, is which produces the better flow, hot or cold?

SUPERSTITION in this Enlightened Age

★ Do you still bury a dishrag to remove a wart on your finger? Perhaps not, but some do. Yet, even seafolk is still worn as a string about the neck to ward off illness.

These cases are extreme, but surprisingly superstitious notions about disease and treatment are held in this enlightened age.

Before you accept unconfirmed statements that hint of witchcraft, consult your physician. He alone is competent to evaluate methods of prevention and treatment of disease. Bring your prescriptions to us.

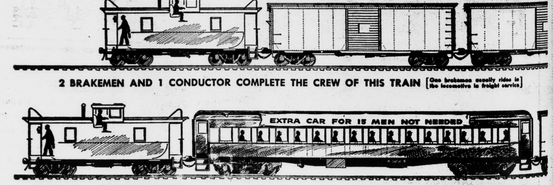
HERE IS A 4-UNIT DIESEL FREIGHT LOCOMOTIVE NOW OPERATED BY 2 MEN (1 ENGINEER AND 1 FIREMAN)



2 BRAKEMEN AND 1 CONDUCTOR COMPLETE THE CREW OF THIS TRAIN [On locomotive to freight service.]

—BUT THE UNION LEADERS WANT 15 EXTRA "SITTERS" ON THIS TRAIN . . . 3 ENGINEERS, 3 FIREMEN, 6 BRAKEMEN AND 3 CONDUCTORS . . . TO GO ALONG FOR THE RIDE AT FULL PAY!

It's to your interest to know about this proposed

feather-bedding!

For sheer feather-bedding, this mock work proposal takes the cake. But it is only one of 44 "rules" demands filed by the leaders of the operating unions. If all these demands were granted, they would cost the railroads an added BILLION DOLLARS A YEAR.

Increased Wages, Too

On top of these "rules" changes, the leaders of the operating unions have filed an additional demand for a wage increase of over 30 per cent. If granted, this would be an added cost to the railroads of $400,000,000 a year.

$468,000,000 To Non-Operating Employes

In addition to this, an Arbitration Board has just granted a wage increase of 15½ cents an hour to the million employes represented by the 17 non-operating unions. This will cost the railroads $468,000,000 a year.

Where Will The Money Come From?

Where will all the money come from to pay these increases? They total several times as much as the railroads made in 1946 or will make in 1947.

In July, the railroads filed an application for increased freight rates to close the gap which then existed between wage and material costs, and railroad revenues. Since then it has been necessary, because of further increases in wages and material costs, to supplement that petition and to ask for an additional freight rate increase. No other course is open.

Railroads Do Not Run For Employes Alone

Railroads are operated for the benefit of not one, but several groups—shippers, passengers, employes, stockholders, and the general public. The interest of all must be served—and that cannot be done unless the railroads can operate efficiently and economically, and unless they are allowed to earn sufficient revenue to provide the kind of transportation service this country MUST HAVE.

High School Chatter

Hello friends! There's so much going on here at the high school that we can't keep up with it.

For one thing, every one is very happy that there was a football game today; that being in Richmond last Friday, because, with so many of the teachers attending we could not have any school. The one-day holiday was enjoyed by all.

Our football team played Blackstone High School Saturday night, October 11. Blackstone won, 47 to 0, in spite of all the hard work our boys put out. But better news . . . We played Altavista Friday, and won 19 to 12. It was a good game in spite of the rain.

It is rumored that our Canteen Parties will be starting in a Friday or two from now. We're keeping our fingers crossed.

One of our old friends, Joyce Wingfield, came to visit us last Friday. We were very glad to see Joyce and we wish her and Dorothy Munsey the best of luck at Radford College. Incidentally, Joyce is learning to play the tuba and she does it so well that when . . . Mr. and Mrs. Morris were at Radford she ventured to play for them, regardless of the threats of some of her classmates.

Mrs. Morris' two music classes and the Senior class went to see "I've Always Loved You," at the local theatre.

Rumors are flying that the Seniors might have year books this year. It's been a long time since this school had one published, and if they do, we wish them the best of luck (and no nervous breakdowns from the hard work that goes into it).

We heard not so long ago that there would soon be an S.C.A. election. Everyone is anxiously waiting to see who the candidates for election will be.

On Wednesday, we had the privilege of having the Rev. Marshall Walker, pastor of Liberty Church, speak to us. He brought a fine message and one that will be remembered.

Congratulations to those who took part in the farm show. We are mighty proud of you! By the way, something tells us that Eddie Caldwell likes grape jelly. How about it, Faye?

We wonder: Why five motorcycles were standing in front of Helen Mac's house Saturday . . . If Elaine has taken up motorcycle riding . . . If Herbie is fickle . . . why Patsy loves the expression, "Rogers" . . . If Elizabeth Mundy could make a dress out of all those ribbons she won at the farm show . . . Why Beulah smiles so much here lately . . . Who Bugs Bunny is . . . what makes Verna so happy . . . and what makes Mr. Peters so nice.

Princess' Wedding Guests Need Toppers

The approaching marriage of Princess Elizabeth and Lieut. Phillip Mountbatten in London has boomed business for the city's hatters. All the nobles and dignitaries must appear in very formal attire, and that means a silk top hat is a must. John Bowyer who has been making toppers for 30 years, holds a few of the hundreds that have been ordered.

Road Fund Allocations

Richmond, Oct. 23.- Nearly all of Virginia's first year allotment under the three year Federal aid program for the postwar improvement of secondary highways has been expended or let to contract, the State Highway Department reported this week.

Thus far 79 farm-to-market road construction projects have been let to contract, the Department said, extending into 71 of the State's 100 counties. Cost of the projects, exclusive of grading in most cases, has run to almost $4,000,000, on which the Federal government will pay 50 per cent, or roughly $2,000,000.

These projects have brought about the hard-surfacing and general improvement of 340 miles on the State's 38,000-mile secondary highway system. The first year program has also included eight bridges and a small amount of stabilization.

Remaining to be let to contract are three projects, delayed due to the lack of satisfactory bids or the necessity for new surveys and plans.

Each county in the State has been allocated a definite share of the Federal monies, department spokesmen said, with the amount determined on a proportionate basis governed by area, population, and secondary road mileage.

TOBACCO PRICES

Prices weakened somewhat this week on bright tobacco at Old Belt warehouses. A few grades dropped to lowest marks for the season.
